The American Text-Books of Art Education.

Prepared by Prof. WALTER SMITH,

GENERAL SUPERVISOR OF DRAWING IN THE BOSTON PUBLIC SCHOOLS, AND STATE DIRECTOR OF ART EDUCATION FOR THE COMMONWEALTH OF MASSACHUSETTS.

The plan of these books is the first systematic effort made in this country to cover the whole field of Art Education for schools, by embracing every subject included under the head of ELEMENTARY DRAWING. Pupils going through the course in all the subjects will be thoroughly grounded, and prepared either for practical industrial art or further professional study of the fine arts. Prof. Smith's Drawing-Books have been adopted in Boston, Pittsburgh, Detroit, Milwaukee, Columbus, Indianapolis, Chicago, and San Francisco.

HARPER'S LANGUAGE SERIES.

BY WILLIAM SWINTON.

Language Primer, 40 cts. | **School Composition, 50 cts.**
Language Lessons, 50 cts. | **Progressive Grammar, 75 cts.**

The completion of "Harper's Language Series" offers the publishers the occasion for inviting the attention of Teachers, Superintendents, and School Boards to the striking merits of the works forming this Series. It is not too much to say that the publication of these text-books marks an era in the teaching of the English language. For years the barrenness of the results attained under the old system of technical grammar has been matter of wide-spread complaint. While modern scholarship has raised the study of language to the dignity of a science, school children have been condemned to feed on the husks of mediæval grammar. Prof. SWINTON, in the "Language Series," has taken the new departure, substituting the actual grammar of the English speech for the antiquated Latin abstractions, forms, and nomenclature. The prompt recognition of the merits of these books shows that they supply a want deeply felt, and their success—a success without precedent in school-book literature—is the best assurance that the *simple, untechnical, objective, and inductive mode of unfolding our speech* meets the views of intelligent teachers.

THEIR PLACE IN SCHOOL.

The **Primer** is designed for use in Primary and Intermediate Grades. The **Language Lessons** is begun in the Grammar School, and furnishes from two to three years' work. The **Composition** succeeds the Language Lessons. The **Progressive Grammar** is for use in the higher grades of Grammar Schools and in High Schools.

DISTINCTIVE FEATURES.

These books replace the study of technical grammar by the vital and practical study of Language.

They are the only perfectly graded series of language books now before the public.

They are the cheapest series of language books ever published.

Though so recently issued, "Harper's Language Series" has already been adopted, either wholly or in part, for use in the Public Schools of **NEW YORK, PHILADELPHIA, BROOKLYN**, and many other Cities and Towns in every part of the United States.

OPINION OF THE BOSTON TEXT-BOOK COMMITTEE.

The Committee on Text-Books of the Board of School Committee of the City of Boston, Mass., unanimously reported the following Order, June 16, 1874:

"*A very thorough examination of it [Language Lessons] has satisfied the Committee that, in plan and execution, it is decidedly the best book out with which to begin the instruction of a child in Grammar and the correct use of the English Language.*

"*They think it should be used instead of Kerl's First Lessons in Grammar, and submit an order to that effect.*

"Ordered, *That Swinton's Language Lessons and Introductory Grammar and Composition be introduced into the Grammar Schools in the place of Kerl's First Lessons in Grammar.*"

☞ Specimen copies with a view to introduction sent FREE on receipt of Ten Cents for postage.

BOOKS RECEIVED.

AN INTRODUCTION TO ASTRONOMY, by Denison Olmsted, LL. D. (Collins & Bro.) The third stereotype edition, revised by Prof. E. S. Snell, with an Appendix containing information of all the late discoveries made in Astronomy, accompanied with illustrations with references to and from additions on the same subjects made in the descriptive parts of the work. The work will be found greatly improved in many respects. 8vo, cloth, $ 2.25.

THE READING CLUB AND HANDY SPEAKER, No. 1, Edited by George M. Baker. Lee & Shepard.) The above is the general title of a series of readings and recita ions, to be issued by Lee & Shepard, and edited by Mr. George M. Baker, known as the author of numerous plays for the amateur stage. No. I, just out, contains about fifty admirable selections in prose and poetry, both humorous and serious, among which are several adaptations of scenes from standard plays. In neat cloth binding, 16mo, 50 cents.

COLUMBIAN SPEAKER. (Lee & Shepard) Consisting of choice and animated pieces for declamation and reading. Selected and adapted by Loomis J. Campbell and Oren Root, Jr. Both English and foreign authors have been searched for gems of eloquence, to add to the attractiveness of this volume. The selections number at least a hundred, and are all new and most judiciously made. 12mo, cloth, 75 cents.

KINDERGARTEN TOYS and How to Use Them, by Heinrich Hoffmann. (E. Steiger.) A practical and useful little book, showing the use of the first six gifts of Fröbel's Kindergarten, prepared by one of his pupils. 16mo, paper, 20 cents.

A PHILOSOPHY OF LITERATURE, by B. A. M. (Claxton, Remsen, & Haffelfinger.) An Essay aiming to embody in a united whole the laws and principles of literature in its most general relations. It may be considered as an introduction to the philosophy of history. 12mo, cloth, $1.

COMPLETE ARITHMETIC, by William G. Peck. (A. S. Barnes & Co.) This volume contains all the principal rules and definitions of Arithmetic, within moderate limits, and simplified so as to meetthe wants not only of the student, but the man of business and the artisan. It is amply illustrated by examples and problems. 12mo, boards, 90 cents.

MODEL FIRST READER, by J. Russell Webb. (Sherwood & Co.) The system pursued in this little reader is somewhat in advance of the word method (as generally understood), as it begins with combinations of words, instead of separate words. These combinations are all capitally aided by brightly colored illustrations, which will be at once appreciated by the child in its efforts towards mastering the first difficult steps in reading. 16mo, boards, 45 c.

U. STATES MINING INDUSTRY, by Rossiter W. Raymond. (J. B. Ford & Co.) A report on mines and mining in the States and Territories of the Rocky Mountains, with discussions and suggestions relative to the condition of the mining industry; together with a description of Placer and Hydraulic Mining, &c. Contains nearly 100 engravings and maps, one of which is a large colored geological map of the U. S. 8vo, cloth, $4.50.

TRIBUNE POPULAR SCIENCE. (Henry S. Shepard & Co.) Under the above title we have bound together a number of the popular "Tribune Extras," containing some of the latest lectures of Agassiz, Tyndall, and Beecher; a complete report of the Evangelical Alliance, with numerous other valuable and scientific papers by Dr. Brown-Sequard, Profs. Loomis, Chandler, Rogers, Mayer, &c., &c. 8vo, cloth, $1.50.

INDEPENDENT CHILD'S SPELLER, by J. Madison Watson. (A. S. Barnes & Co.) The peculiarity of this Speller is the style in which it is printed, being an imitation of writing throughout, as that form is the only one used in connection with spelling in after-life, the author has wisely considered that the child's eye should be trained to it from the beginning. The little book contains a slate in the back, so the spelling lessons may also be used as writing exercises. 16mo, boards, 25 cents.

FOURTEEN WEEKS IN CHEMISTRY, by J. Dorman Steel. (A. S. Barnes & Co.) A new and revised edition of a very popular work, issued with the new nomenclature by general request. 12mo, cloth, $1.50.

PHYSICAL TRAINING AND CALISTHENICS, by Chas. J. Robinson. (Payot, Upham & Co.) An earnest little work on the great need of the American people for more efficient physical training in the public schools. It is written by a pupil of Dio Lewis, and gives full directions for a variety of easy and pleasing calisthenic exercises. 16mo, cloth, 50 c.

L. Prang & Co. in the Service of Education.

MESSRS. L PRANG & CO. are extending the application of the art of chromo-lithography to educational publications, and are thus furnishing a new lever to those who are engaged in moving the youthful mind, or, at least, one comparatively new in this country. Their "Natural History Series," which rapidly has become a favorite aid for instruction, is being enlarged by a considerable number of new plates of the larger size. These plates will serve partly as auxiliaries in the illustration of the families of animals or plants already comprised in the "Series," partly as introduction to new subjects, to be followed up later with small cards. They have also in preparation a series of plates, illustrative of the different trades, to be used as "Aids to Object Teaching" by the teachers in Primary Schools. There are numberless publications of this kind in use in Europe, and their value as educational helps has been recognized there, not only by the hearty support of the teachers, but frequently by the official endorsement of the school authorities. In our own country teachers and schoo! officers are only just beginning to wake up to a knowledge of the value of such "Aids," and the publishers are therefore doing a sort of missionary work, involving some risk, by entering upon such an undertaking. The plates will all be from original designs, as the peculiarities of American workshops and factories must, of course, appear in them. The Messrs. Prang & Co. are also preparing to supply the wants created by the art-educational movement now spreading so rapidly all over the country. The impetus which called forth these particular publications was first given by the needs of the Art Schools of Boston, or rather of Massachusetts entire, under the control of Mr. Walter Smith. A number of water-color studies re-produced by the Messrs. Prang were in use in the State Normal Art School during the last session, and they are now busily engaged in reproducing a set of original water-colors, which were likewise used in the same way during the last session. Their re-production by chromo-lithography will necessarily facilitate the studies at the Art School, since, where the original was available for one student only, any number can henceforth be accommodated by the use of the copies. To these water-color studies there will be added a series of plates elucidating the character of the different historical styles of ornament, and arranged on the principle of parallelism, so as to show, for instance, how each style produces an ornament similar to that known as "the scroll of Vitruvius," but modifying it so as to stamp upon it its own peculiar character. This publication will, in fact, contain the essence of such works as Owen Jones' "Grammar of Ornament," or Racinet's "Polychromatic Ornament," and will be of great value to art students, who, as a rule, are not in a position to acquire the costly works just named. Still another series of plates will show the application of plant forms to ornamentation, exhibiting the different plants introduced in their natural growth and colors; an analysis of the various parts, and their application to conventionalized ornament. One feature of this publication peculiarly interesting to Americans, will be the introduction of a number of plants specifically American, which, as a matter of course, have been neglected in the various works published on this subject in Europe. Finally, there is also in preparation a work for the use of mechanical draughtsmen, carpenters, joiners, etc., which will be more especially adapted to the wants of scholars in industrial evening schools.

The Most Complete, Comprehensible, and Reliable Work on Homœopathic Domestic Medicine Ever Published.

The Homœopathic Domestic Medicine.

By JOSEPH LAURIE, M.D.

Fifth American from the Twenty-first English Edition. Edited and Revised, with numerous important additions, and the introduction of the new remedies.

By ROBERT J. MCCLATCHEY, M. D.

EXTRACT FROM THE PROSPECTUS.

It is for the family, the traveller, the emigrant, the missionary, &c. For the simple and ordinary ailments of life it will be found to be *all that is required* in a medical treatise; while for more dangerous maladies, acute or chronic, by which life is often placed in jeopardy, when the services of a competent homœopathic physician are unattainable, it will be found to be perfectly clear, exact, and reliable, both in the descriptions of diseases, and of their proper homœopathic treatment. It has been prepared for the many, and embraces all contingencies; and is written in the most lucid and comprehensive style, and in chaste language.

This book has met with the the most unprecedented sale of any homœopathic work on record, 5,000 copies having been sold within three years.

Price, bound in splendid style, $5.00, free of postage.

A TOUCHING STORY.

JOHN HATHERTON. By the author of "Effie's Friends." 18mo ..... 75 cts.

One of the most touching stories in print. No one can read it without having awakened in him the better feelings of his nature.

AUTUMN LEAF STORIES. By E. M. J. Nine Illustrations. 18mo ..... 60 cts.

There are nine stories for the young in this little volume. Each is an argument against some fault—selfishness, revenge, theft, pride, etc., or an exhortation to some virtue of Christian character. The stories are very neatly told, and embalm the moral so that it will be preserved and may be useful.

COUSIN ALICE. A Prize Juvenile Story. Illustrated. 18mo ..... 90 cts.

LET WELL ALONE. By the author of "But Once." Illustrated. 16mo $1.25

A story of an ingenious and skilful mechanic, who succeeded well in his business, but who was never content with moderate success, but always giving up one kind of business as soon as it began to pay, and rushing into something new that promised better. It is only too true a picture of what we see almost every day. The book contains an important lesson, forcibly illustrated.

IN EARNEST; or, Edith Palmer's Motto By Faye Huntingdon. 16mo $1.00

This is a book for girls, and shows well how much can be done by taking up and ever acting on the important motto IN EARNEST.

Professor of Physical Science in the State University of Iowa, and Member of several Scientific Societies of France and Germany.

FIRST GRADE.

THE RUDIMENTS OF PHYSICAL SCIENCE FOR GRAMMAR SCHOOLS.—(One-volume, in three parts—in preparation.)

SECOND GRADE.

THE ELEMENTS OF PHYSICAL SCIENCE —FOR HIGH SCHOOLS, ACADEMIES, AND COLLEGES:

The Elements of Physics—With a Plate and Journal of Experiments.

CONTENTS:

Chapter I. Magnitude and Weight; II. Mechanical Work and Machines; III. Molecular Properties of Matter; IV. Light and Vision; V. Electricity and Magnetism.

LARGE 12MO; 307 PAGES. PRICE, $1.50.

The Elements of Chemistry and Mineralogy—With two Plates and Journal of Experiments.

This work is a continuation of the "Elements of Physics." Laboratory practice in chemistry is universally recognized as essential; but it cannot become universal, if grand laboratories with costly apparatus are required. By excluding special and professional branches, the methods of elementary laboratory practice here given can be furnished free of charge by any school to all its pupils. See Chaper VII. of this volume for details.

Uniform in size and style to "Elements of Physics." PRICE $1.50.

The Student's Cosmos—(In preparation.)

THIRD GRADE.

THE PRINCIPLES OF PHYSICAL SCIENCE —FOR COLLEGES AND UNIVERSITIES:

VOL. I.—**The Method of Quantitative Induction.** (Published 1872.) PRICE, bound, 80 cents; in paper, 60 cents.

VOL. II.—**The Principles of Chemistry.** (Just published) 225 pages; 8vo. PRICE, $2.50.

The Principles of Chemistry here to be presented comprise a concise exposition of those GENERAL PRINCIPLES AND LAWS OF THE SCIENCE OF CHEMISTRY which should be understood by all who pretend to a liberal education. Hence the specialities, of however high an importance to the specialist, whether in pure chemical science or its innumerable applications, cannot find a place in this volume.

Either the inductive or the deductive method would have been more scientific, perhaps; but the aim kept in view during the preparation of this work was not so much a theoretically finished treatise, as a GUIDE to students, who, at the expense of comparatively a short time, are enabled to become thoroughly familiar with the general principles of Chemistry. At the same time, the author is confident that this volume will give those students who expect to study ANY BRANCH of Chemistry as a specialty, exactly that preparatory training which will facilitate their special work.—[Notes from the Introduction.]

OFFICE OF THE BOARD OF EDUCATION,

CORNER OF GRAND AND ELM STREETS,

NEW YORK, May 21, 1874.

I have examined a Chart of the "Statistics of the World," by Prof. Schem, and consider it a highly valuable compilation.

As a supplement to the different geographical text-books in use it could not fail to prove of great importance to the teachers of our Grammar Schools, each of which should be supplied with a copy of the work.

HENRY KIDDLE, City Superintendent.

Extract from a letter to Prof. Schem from W. E. Griffis, Imperial College, Tokei, Japan.

As Japan is a country to whose statistics, etc., I have paid considerable attention, and as you request statistical information and corrections, I send you some which I have secured myself from the untranslated blue book of Japan, the "Nai Guai Ichi Ran." . . . Wishing you deserved success in the publication of your valuable and very useful tables, I remain, etc.

READY EARLY IN SEPTEMBER,

SCHEM'S

STATISTICS OF THE WORLD.

THIRD EDITION, REVISED, CORRECTED, AND BROUGHT DOWN TO SEPT., 1874.

In oblong book form, bound in neat boards, for handy reference . . . . . Price 50 cents.
Mounted on rollers . . . . . Price

OPINIONS OF THE PRESS.

"'The Statistics of the World,' by Professor Alexander Schem (G. J. Moulton), sustains the favorable reputation of that useful work. The compiler has brought his own high personal authority to the preparation of the work, combined with an intelligent use of the most recent sources of information, forming a series of reports concerning the government, population, and commerce of the different countries of the world, together with a variety of miscellaneous statistical facts, which can hardly be found elsewhere in so narrow a compass or with so little expense of time and money."—*N. Y. Tribune.*

"As a work of reference for writers, politicians, and others, most valuable."—*N. Y. Evening Post.*

"Altogether the compilation by this famous statistician is exceedingly valuable, and the enterprise that has accomplished it cannot be too highly commended."—*N. Y. Evening Mail.*

"With great ingenuity Prof. Schem has so tabulated his materials as to enable him to display clearly and compactly statistical summaries on all subjects capable of numerical or nominal statement, and interesting to the merchant, the publicist, the professional man, and the citizen. . . . . It is a masterpiece of condensation and clearness, and deserves the most liberal support."—*Christian Union, N. Y.*

"The accuracy of the tables is guaranteed by the eminent reputation of Prof. Schem, as one of the most thoroughly informed and most careful statisticians we have."—*Methodist.*

"Not a large work, but 'chock full of science.' Almost every conceivable subject of information, relative to almost every place in the habitable globe, is here tabulated in atlas form, convenient for ready reference. That it is edited by Prof. Schem is sufficient guarantee of its accuracy. The work is a marvel of patient research, cannot fail to be useful, and ought to be used everywhere."—*Moore's Rural New Yorker.*

"Contains a large amount of information."—*Scientific American.*

"Gives the facts and figures of the world's affairs boiled down even to the point of desiccation. . . . . An excellent feature is the comparison of the weights and measures of each country with the French and English standards; their coin values are also given in dollars and cents."—*Popular Science Monthly.*

"We know of nothing in the way of compact statistics quite so convenient as 'Schem's Statistics of the World,' a publication at once very compact and very comprehensive."—*Hearth and Home.*

"In comprehensiveness and compactness the chart is a marvel."—*Home Journal.*

"The tables of statistics, prepared by Professor A. J. Schem, and commonly known as 'Schem's Tables,' or 'Schem's Charts,' have a well-established reputation for convenience, compactness, and comprehensiveness. There is no other publication so convenient and trustworthy for the general statistics of all countries."—*Boston Advertiser.*

"We know of no statistical table which includes so much in small space as Prof. Alexander J. Schem's."—*Springfield Republican.*

Important for Schools.

The especial attention of the Principals and Teachers of American Schools is called to a few features of SCHEM'S STATISTICS OF THE WORLD, which make it very useful for practical teaching.

IN GEOGRAPHY.—By giving the latest official account of the area and population of the countries of the globe as well as the population of the large cities and towns, the Tables will be found, in many instances, to correct the statements of the geographical manuals. The copies of these manuals in the hands of the pupils are often one, two, and more years old, and their statistical statements are therefore not up to date. By comparison with the Tables, teachers will be enabled to test, before introduction, the value of any geographical hand-book, or, when in use, to instruct the pupils to make the necessary marginal corrections.

IN ARITHMETIC.—It will supersede the latest table-books by the completeness of its comparative columns of moneys, weights and measures of all countries reduced to American and French standards, which, by their systematic arrangements, can be referred to at a glance.

IN MODERN HISTORY.—It will supplement Modern Histories by the latest account of the actual sovereigns and rulers of all countries, giving their names, year of birth, and year of accession.

Samples of copies of the second edition will be sent *free* on receipt of letter stamp by the publishers. Orders for the new edition will be filled by all booksellers.

TWO IMPORTANT

SCHOOL HISTORIES OF ENGLAND.

EXTENSIVELY USED IN THE

SCHOOLS OF GREAT BRITAIN.

WHITE'S

HISTORY OF ENGLAND

FROM

The Earliest Times to the Year 1858.

By the REV. JAMES WHITE, author of "The Eighteen Christian Centuries," "Landmarks of the History of Greece," "Landmarks of the History of England," etc. New edition. Crown 8vo, cloth, 856 pages. $2.50.

In order to render this work complete as a student's manual, a critical analysis of the leading events of English History, subdivided into sections, is given at the commencement of each book or chapter, and a copious historical index appended to the volume.

Its very extensive use in the schools of Great Britain is a sufficient guaranty of its value as an educational work.

THE VICTORIA

HISTORY OF ENGLAND

FROM

The Landing of Julius Cæsar, B. C. 54,

TO THE

Passing of the Irish Church Bill, A. D. 1869.

By ARTHUR BAILEY THOMPSON. With a chronological table and summary of remarkable events, maps of England, showing the Roman and modern names of cities, towns, rivers, etc. Illustrated with upwards of four hundred engravings by the Brothers Dalziel. Crown 8vo, cloth, 750 pages. Price, $3.

"This is, on the whole, the best History of England for young people which we have yet met with. The plan of the volume is excellent; and the chronological tables, index, and maps of the appendix will make a useful, handy book even for older readers, and is in itself a striking proof of the great improvement in recent times of our educational literature."—*London Daily News.*

NEW SCHOOL, 1 vol., 12mo, cloth, ... 1 75

LEADING FEATURES OF THE WORK:

1. The Style of narrative combines brevity and perspicuity. It *interests* the student.

2. The Arrangement is new and attractive; being divided into Sections, Sections into Paragraphs, and Paragraphs are given appropriate topical headings. The Sections are followed by the usual questions for review.

3. It gives a just account of the late war. It records facts and withholds opinions. It tells the truth and fosters no bitterness.

4. It avoids the monotony of numerous and tedious details. It strikes to the pith of things and is fresh.

5. The Maps represent sections of the United States and Mexico, on which are accurately located all the battles that have been fought since the settlement of the country.

They have been adopted in the Public Schools of Kentucky, Virginia, and Maryland, and very many of the finest Private Schools and Academies in the country.

NEWELL & CREERY'S SERIES OF SPELLERS AND READERS.

The Illustrated Primary School Spelling Book, with Exercises in the Elementary Rules of Arithmetic for Primary Schools. By Prof. W. R. Creery, Superintendent of Public Instruction, Baltimore. 16mo, half bound, 144 pages. 35 cents.

Key to the Exercises in Elementary Arithmetic, contained in the Illustrated Primary School Spelling Book. By the same author. 16mo, half bound. 50 cents.

The Grammar School Spelling Book, containing Derivative Words, with rules for their formation; a full list of homophonous words; Test Words; a very large collection of Synonyms; and an Etymology. By Prof. Wm. R. Creery, A.M., Superintendent of Public Instruction, Baltimore. 1 vol., 12mo, half bound, 216 pages. 50 cents.

From the "Normal Educational Monthly," Cincinnati, Prof. R. H. Holbrook, Editor.

"A part of our work is to teach spelling, and to help us in this direction, we looked among the myriads of spellers published, and found not what we wanted until we came to this. Since it exactly suits our needs, we are glad to recommend it to others, feeling sure that every one who examines it will use it."

The two Spelling Books have been prepared by Mr. Creery. The larger one is worthy of high commendation. It contains a very full list of homophonous words, synonyms, Greek and Latin derivatiives, prefixes and suffixes, and test words. Authors and journalists will find it a serviceable book for ready reference in the haste of composition.—*Literary Gazette.*

The First Reader. For Primary Schools. By Prof. M. A. Newell, A.M., Principal of the Maryland State Normal School, and Prof. Wm. R. Creery, A.M., City Superintendent of Public Instruction, Baltimore. 12mo, 72 pages. Illustrated. 25 cents.

The Second Reader. For Primary Schools. By the same authors. 12mo, 132 pages. Illustrated. 50 cents.

The Third Reader. For the use of Schools. By the same authors. 12mo, 216 pages. 75 cents.

The Fourth Reader. For the use of Schools. By the same authors. 12mo, 276 pages. Illustrated. 90 cents.

The Fifth Reader. For the use of Schools. By the same authors. 12mo, 360 pages. Illustrated. $1.25.

The Sixth Reader. For the use of Schools. By the same authors. 12mo, 444 pages. Illustrated. $1.50.

They are produced in an excellent style of manufacture. In paper and typography, and in the character of the illustrations, they will compare most favorably with any other works of the class. They are thoroughly graded, and the publishers announce that the selections are entirely free from sentiments of a political or sectarian character, and that "there is not a line which may not be read without offence in any school North or South, or by persons of any religious denomination." We heartily wish that the same thing could be said of all such books. The Sixth Reader is an admirable collection of fresh and diversified selections, including a large number from very recent English and American literature, and even from living writers.—*Literary Gazette.*

A Catechism of United States History, with Questions on the Constitution of the United States, and a list of Presidents, Vice-Presidents, and Cabinet Officers, from the formation of the Government to the year 1869, inclusive. By Prof. Wm. R. Creery, A.M., Superintendent of Public Instruction, Baltimore. 1 vol., 18mo, half bound, 216 pages. Illustrated. 50 cents.

Irving's Series of School Catechisms. Revised by M. J. Kerney, A.M.

The long-established reputation of Irving's Catechisms, and the very extensive circulation which they had, not only in England, but also in this country, is the best proof of their utility. The plan of his work is the very best that could be adopted. The catechetical form of instruction is the nature and capacity of youth; a system by which children will acquire a knowledge of a science in less time than any other.

Astronomy. Containing the Motions, Magnitude, Periods, Distances, and other Phenomena of the Heavenly Bodies, founded on the laws of Gravitation. With engraved Illustrations. 20 cents.

A Course of Moral Philosophy, embracing Logic, Metaphysics and Ethics. A Text Book for Colleges and Schools. By Rev. A. Louage, C.S.C., Professor in the University of Notre Dame, Ia. 12mo, half roan. $1.50.

The author of this important work having had charge of a class unacquainted with the classics, felt the serious want of a Text-book which could be placed in the hands of such students with Profit. Such a Treatise on Moral Philosophy, complete in its contents, but short in its treatment, has never before appeared in any of the modern languages. In many colleges, class lectures are a loss of time to not a few of the students, while the method of transcribing is always liable to the objection of an incorrect copy of the Professor's dictations. Logic alone forms the text of an entire year's study of Philosophy in many institutions With a Text-book short enough to be committed to memory, and omitting the substance of none of the important questions and principles for answering objections, a complete course of Moral Philosophy may be made in the same period. To meet this Great Want is the object of this work. It is exhaustive of the whole elementary course of Moral Philosophy, and is remarkable for its brevity and comprehensiveness.

GOSTWICK & HARRISON'S GERMAN LITERATURE. Uniform with the class-room abridgment of Taine's English Literature, large 12mo, $2 50.

Any one who is desirous of forming an easy and pleasant acquaintance with the best works of German authors may be safely recommended to study it. The book gives a very complete view of general literature from the earliest times, passing with judicious brevity over some of those works which have rather earned the respect of scholars than the esteem of general readers. The reader will find much to enliven his passage through the wide field of German literature.—*London Athenæum.*

The authors have endeavored, and we think successfully, to explain the position occupied by the most original minds of the country. The book is written in a style likely to attract the reader.—*Pall Mall Gazette.*

"A truly interesting record."—*N. Y. Post.*

"In this little book he has given things that he saw."—*Sun.*

"One of the most delightful of the season's books of travel."—*Boston Globe.*

"We like the book."—*Farm and Fireside.*

"We can heartily commend this little volume to all classes of readers as one sure to engage their attention and furnish them a great deal of information and amusement."—*Boston Post.*

By WM. DUGAS TRAMMELL.

CA IRA. A Southern novel; with opinions on the Labor Question, the Commune, Social Views, &c. 12mo, 360 pp. $1.50.

"The author's style is clear, vigorous, graceful, and aggressive. If the reader can imagine the American hissing 'you bet,' as though replying to a challenge to mortal combat, he will in a very slight degree catch the spirit of Ca Ira."—*Savannah (Ga.) News.*

"Trammell is the first Southern author we are aware of who presents any true pictures of Southern life."—*Seaport Appeal*, Brunswick, Ga.

"Mr. Trammell has written many sensible things in this book. . . . . It is better than nine-tenths of the stuff that passes for artistic fiction."—*Columbus Engineer.*

"After the manner of Victor Hugo."—*N. Y. Herald.*

"It contains some powerful passages, in which the author seems to have thrown himself with much spirit into the scenes he describes. On the whole, the work will repay perusal."—*Sunday Democrat.*

By CHARLES F. DEEMS, D.D.

JESUS: A History of His Life as gathered from the Evangelists, and not assuming, but proving His divinity. 8vo., large, 756 pp., beautifully illustrated. Price, $4.00.

"It is the first *rational* history of Jesus which we have seen. The Evangelists are dealt with as a historian would deal with the classical authors, Tacitus and Livy, for instance. An attempt is made, and we think it will be pronounced a most successful attempt, to ascertain the consciousness of Jesus at each utterance and each act. His divinity is not assumed."—*Christian Leader.*

"This book of Dr. Deems deserves an extended and enduring popularity, and is destined to receive a welcome from a multitude of men and women who love Jesus."—*Western Methodist*, Memphis.

"He has, by the light of the best guidances attainable, written the life of the Incarnate. Like that is nothing else known in science or history."—*Methodist Quarterly Review.*

"It has our cordial approval, as candid, scholarly, excellent."—Rev. Dr. BURCHARD in the *Atlantic and Pacific Journal.*

"It is the work of our day."—Rev. Dr. WENTWORTH.

"It is a book that will bear re-reading, full of instruction and spiritual good."—*Pulpit and Pew.*

"Many lives of Jesus have been written; but, unless we are much mistaken, those who have read most of those lives will be most pleased with the work of Dr. Deems. And those who have read none of them should, by all means, procure this volume and devour its fascinating pages."—ALBERT TAYLOR BLEDSOE, LL.D.

By LAURA C. HOLLOWAY.

LADIES OF THE WHITE HOUSE. Being the Lives of the Families of our Presidents, from Washington to Grant. 16 steel portraits. Large 8vo., Cloth, 658 pp. $3.50.

"The entire Republic will be thoroughly grateful to Mrs. Laura Carter Holloway for her complete account of these eminent women."

"This volume of biographies gives an interesting account of social life in the capital of the United States, as influenced by the wives and daughters of the Presidents, and forms an agreeable addition to the political history of the nation."—*Public Ledger*, Philadelphia, Pa.

By MRS. L. ST. JOHN ECKEL.

MARIA MONK'S DAUGHTER. An Autobiography. This book is a sequel to "Awful Disclosures of Maria Monk," the book that created so great an excitement thirty-five years ago. Mrs. Eckel now lets light into the history of that book, and also gives a graphic portraiture of her own eventful life. This book is bound to create a great sensation in the literary world. Crown 8vo, about 700 pp. Price, in elegant cloth, illustrated, $3.50. Advance orders filled in the order of Receipt Book will probablybe ready September 1st.

THE UNIVERSE AND THE COMING TRANSITS. Presenting Researches Into, and New Views Respecting, the Constitution of the Heavens; together with an Investigation of the Conditions of the Coming Transits of Venus, recently confirmed by a unanimous Vote of the Chief Astronomers of Great Britain. By RICHARD A. PROCTOR, B. A. (Cambridge), Honorary Fellow of King's College, London. Illustrated by 23 Charts (4 colored), including two specimens from the author's Chart of 324,000 Stars. 8vo. Fine cloth. $6.00.

"The work is profusely illustrated with elaborate diagrams, and is certainly the ablest and most comprehensive astronomical treatise that has appeared for many years."—*Phila. Evening Telegraph.*

THE CONCORDANCE TO SHAKESPEARE'S POEMS. An Index to Every Word Therein Contained. By Mrs. HORACE HOWARD FURNESS. 8vo. With the Poems appended. Extra cloth. $4.00.

"It will be as valuable to readers of Shakespeare as is Mrs. Mary Cowden Clarke's Concordance to the Dramas. At the end of the volume the entire poems are also printed, which will add greatly to the value of the work. The patience, care, and industry necessary to the preparation of such a book are worthy of the highest praise; and the volume shows that Mrs. Furness is as devoted a Shakespearean as is her husband, whose variorum edition of the plays has won the admiration of scholars and critics wherever the volumes issued have been received."—*Phila Evening Bulletin.*

THE NEW NATIONAL SERIES.

MESSRS. A. S. BARNES & CO. have the satisfaction to announce the near approach to completion of their new or supplementary series of text books, embracing the choicest recent works on every subject pursued in our schools.

They are the only publishers in this country, and, it is believed, in the world, who can offer to their patrons for selection **Two Complete Series** of text-books, each independent of the other, and each possessing incontestible merits, peculiar to itself. The elder or "**Standard Course**" is composed of such works as Davies' Mathematics; McNally's Geography, Parker & Watson's Readers; Willard's History; Peck, Porter, Jarvis, Wood, and others in the sciences; etc. All of these have been recently revised or re-written, so as to be fully up to the most exacting modern demand, and are sold to the extent of many hundreds of thousands of volumes annually, with the undiminished approbation of the public.

The **NEW SERIES** finds its *raison d'etre* largely in the demand for "brief" text-books, forced upon us by the crowded courses of instruction which now prevail. We believe, however, that there is a limit of concession here, in the interest of schools, and our books have not accordingly been reduced to the minimum, but are sufficiently full to afford **a Thorough and Practical Education** to those who depend upon them for all they acquire. The difficult attempt to reconcile the popular clamor with a really adequate course, has been brought to a most successful issue in the several series enumerated below, of which the publishers are as justly proud as of their Standard Course, and predict for them an equal degree of popularity.

VALUABLE SCHOOL BOOKS,

PUBLISHED BY

Hurd & Houghton, NEW YORK. The Riverside Press, CAMBRIDGE.

I. **FIRST STEPS IN GENERAL HISTORY.** A Suggestive Outline. By ARTHUR GILMAN, M.A., author of "First Steps in English Literature." With maps and charts. 16mo, cloth, $1.25. *Just Ready.*

The points of this book which render it specially desirable for school use are 1. *Its orderly Arrangement of topics.* Each country is taken up by itself and its history sketched before attention is turned from it, thus fixing the mind upon but one subject at a time. 2. *Its compactness.* It aims to present the historic events and names about which history gathers and to concentrate the interest on these, so that the young student may not be confused by a multitude of names and dates. 3. *Its attention to the United States.* The Book being prepared by an American for use in American Schools, not only is the history of the United States given more fully than in any similar book, but the needs of American children are constantly kept in mind. 4. *Its recentness.* The book is brought down in each case to the latest date, making it specially valuable to those who wish a correct outline of recent history. 5. *Its illustrative Apparatus.* Maps purposely free from details exhibit the geographic relations of the countries; views of contemporary events are given in tables; foot-notes call attention to works of literature that bear upon special events, and a full bibliography enables teacher and student to expand their study of any particular period. A minute index renders the book very serviceable as one of reference.

The style is beautiful, clear, and concise.—*Mrs. E. F. Hammill*, Utica. N. Y. Female Seminary.

Prof. W. F. ALLEN, of the University of Wisconsin, says: The most characteristic feature of it is the distinctness given to the history of the several countries.

He has done his work conscientiously.—*Boston Globe.*

This outline of history is better than good—it is admirable.—*Morning Star.*

A masterpiece of historical condensation.—*Watchman and Reflector.*

A decided success.—*President Cooke.*

Nothing better has yet been prepared.—*N. Y. Independent.*

The execution of the work has many excellencies, especially a constant and most laudable effort to present history in a light at once vivid and earnest.—*N. Y. Nation.*

II. **FIRST STEPS IN ENGLISH LITERATURE.** By ARTHUR GILMAN, M.A. In one volume, 16mo. Eighth edition, revised. Cloth, $1.00.

This excellent text-book has already been introduced into a great many private and public schools, among which may be mentioned: Mrs Ogden Hoffman's School, New York City; Elie Charlier's Institute for Young Ladies, New York City; Elisee Charlier's Institute for Young Gentlemen, New York City; Miss A. Van Wagenen's Institute for Young Ladies, New York City; St. Mark's School, Rev. J. I. T. Coolidge, Southborough, Mass.; Miss Sanger's School, Charles Street, Boston, Mass.; Utica Female Seminary, Mrs. E. F. Hammill, Utica, N. Y.; High School, Utica, N. Y.; Wilbraham Academy, Mass.; Bradford Academy, Miss Johnson, Bradford, Mass.; Houghton Seminary, Dr. J. C. Gallup, Clinton, N. Y.; St. Agnes' School, Albany, N. Y.; Lake Erie Seminary, Painesville, Ohio; University of Alabama, Tuscaloosa, Alabama; Alabama Central Female College, Tuscaloosa, Alabama.

III. **ELEMENTS OF PHYSICAL MANIPULATION.** By EDWARD C. PICKERING, Thaye Professor of Physics in the Massachusetts Institute of Technology. In one volume, octavo. Illustrated. Price in cloth, $3.00.

The strongest feature of the book is in its teaching power. It is truly calculated to educate in the correct way, and the use of it will give mental strength to the student. It must undoubtedly be pronounced an excellent book for reference, and *much better for educational purposes than any text-book of physics yet in print.*—*New York Tribune.*

We have observed one feature of this work with especial satisfaction. The author has everywhere aimed to employ the simplest and cheapest apparatus which would answer his purpose. Many of the instruments he describes can be constructed by any student of ordinary intelligence who has access to a turning-lathe and to such tools as are found in every carpenter and smith's shop. He has thus shown that excellent results in the way of laboratory practice are within the reach of schools that are by no means rich.—*Prof. F. H. Smith of University of Va.*

The book presupposes some acquaintance with the science, and is clearly and ably written. The experiments are well selected, and are mostly typical ones furnishing the basis upon which physical science depends. We like this first part so well that we trust soon to see a continuation of it.—*Iron*, London.

IV. **COLBURN'S ARITHMETIC.** Intellectual Arithmetic upon the Inductive Method of Instruction. By WARREN COLBURN, A.M. In one volume, 16mo. Half bound, 40 cents.

"Everything I have seen confirms me in the opinion which I early formed, that Colburn's Arithmetic is the *most original* and far the *most valuable* work upon the subject that has yet appeared. Where it has been used, and *properly* used in a school I find an intelligence and readiness in the processes of mental arithmetic which I look for in vain in cases where the instruction has been conducted upon principles foreign to those which Mr. Colburn introduces.—*George B. Emerson.*
